

# Find the Equal Share

How many cars will each boy have?

Find the equal share if these toy cars were shared among:

$$6 \div 2 = \underline{\hspace{2cm}}$$

Two Boys

$$6 \div 3 = \underline{\hspace{2cm}}$$

Three Boys

$$6 \div 6 = \underline{\hspace{2cm}}$$

Six Boys

$$8 \div 4 = \underline{\hspace{2cm}}$$

Four Boys

$$6 \div 2 = \underline{\hspace{2cm}}$$

Two Boys

$$8 \div 8 = \underline{\hspace{2cm}}$$

Eight Boys

$$10 \div 5 = \underline{\hspace{2cm}}$$

Five Boys

$$10 \div 2 = \underline{\hspace{2cm}}$$

Two Boys

$$10 \div 10 = \underline{\hspace{2cm}}$$

Ten Boys

How many groups of 4 cars are there ? \_\_\_\_\_

How many groups of 6 cars are there ? \_\_\_\_\_

How many groups of 3 cars are there ? \_\_\_\_\_

How many groups of 2 cars are there ? \_\_\_\_\_

How many groups of 12 cars are there? \_\_\_\_\_
